

INDIASOFT TECHNOLOGIES TO DISTRIBUTE DYNOCHEM IN INDIA

Process Solutions Division ideally suited to meet pharma industry needs

DUBLIN, Ireland – June 24, 2008 – Performance Fluid Dynamics (PFD) Limited, the leading provider of unit operation modeling software to the pharmaceutical industry, today announced the launch of a distribution agreement for DynoChem with IndiaSoft Technologies Ltd. IndiaSoft will have responsibilities for DynoChem sales, customer service, training and technical support for the Indian market.

PFD Chief Operating Officer Steve Hearn said "We were receiving an ever increasing number of enquiries from the Indian pharmaceutical industry and were looking at how we could best serve this market with a local presence. With its dedicated teams across the country, IndiaSoft's Process Solutions Division was identified as having the requisite resources and progressive outlook that fitted well with the opportunity."

"I am delighted with the new agreement," said Sunil Nambiar, Managing Director of IndiaSoft Technologies. "I see a lot of potential to help the Indian pharmaceutical industry enhance their process development workflows and manufacturing efficiency. Our Process Solutions team looks forward to ensuring they are successful with DynoChem."

About DynoChem

DynoChem® is productivity software for scientists and engineers working in chemical process development. DynoChem provides enterprise-wide tools for optimizing unit operations and scale-up through predictive modeling and the application of Quality-by-Design (QbD). Customers include 11 of the top 12 pharmaceutical companies and major agrochemical and specialty chemical producers.

About PFD

Performance Fluid Dynamics (PFD) Limited is the owner and developer of DynoChem®.
