

Scale-up Systems: Dr Jose Tabora of Bristol-Myers Squibb wins AIChE Award for Excellence in Quality by Design (QbD)

Award sponsored by DynoChem to be presented at Annual Meeting, 16-21 October, Minneapolis

DUBLIN, Ireland – September 19, 2011 – The Pharmaceuticals division of AIChE today announced that Dr Jose Tabora of Bristol Myers Squibb will receive the 2011 AIChE Award for Outstanding Contribution to Quality by Design (QbD) for Drug Substance. DynoChem Inc, the North American subsidiary of Scale-up Systems Limited, continues its sponsorship of the Award, worth \$1500 and a commemorative plaque.

Dr Tabora was nominated for his leadership role in application of advanced computational tools and approaches for data generation, exploration, visualization and analysis to support the Quality by Design framework and for his publications on QbD tools and techniques.

Dr Joe Hannon, Managing Director of Scale-up Systems, who helped to coordinate the awards process, congratulated Dr Tabora, noting that "Jose has been instrumental in showing how to link tools such as statistical and first principles modeling to deliver QbD and we look forward to extending the reach of these tools for the benefit of the whole pharmaceutical community".

The QbD Topical Conference Program at the AIChE Annual Meeting, thanks to volunteer efforts of session chairs from industry, regulators and academia, features many high quality sessions on the scientific and practical aspects of QbD implementation. Full details are available at <http://aiche.confex.com/aiche/2011/webprogram/TL.html> and <http://aiche.confex.com/aiche/2011/webprogram/Symposium1926.html>. Online registration is available at: <http://www.aiche.org/Conferences/AnnualMeeting/index.aspx>.

A parallel prize for QbD for Drug Product, sponsored by Pfizer Inc, will be awarded to members of the Chantix/Champix Real Time Release team. 2011 also features a new third award, sponsored by Merck & Co, for Excellence in Integrated QbD Practice. All three QbD awards will be presented at a special session on Tuesday evening, October 18: <http://aiche.confex.com/aiche/2011/webprogram/Session18542.html>.

Further coverage of the awards is available at www.PharmaQbd.com.

About DynoChem

DynoChem® is the world's leading process design, development and scale-up software for scientists and engineers working in the pharmaceutical industry.

About Scale-up Systems

Scale-up Systems supports companies in increasing productivity in R&D and Manufacturing by the adoption of appropriate technologies, enabling collaboration across traditional boundaries and embracing Quality by Design. The company has been operating since 1994 and subsidiaries include its North American distributor, DynoChem, Inc. and its Indian distributor, Scale-up Systems India Pvt. Ltd.
