

FIRST DYNOCHEM GLOBAL USER GROUP MEETING TO BE HOSTED IN NORTH AMERICA

Advisory Board Meeting to Follow

Dublin, Ireland, April 3, 2007 -- DynoChem Inc., the North American subsidiary of Dublin-based PFD and a leading provider of process development software for the pharmaceutical and chemical industries, today announced that registration for the first DynoChem Global User Group Meeting is open and available on the company's website at www.scale-up.com/ugm.html. The venue is the Philadelphia Downtown Marriott hotel in Philadelphia, PA, US on May 15-16, 2007. Immediately following, the Company's Second Development Advisory Board Meeting will be held on May 17.

The User Group Meeting comprises two full days of industry presentations around the theme "work smarter, not harder", with speakers from companies such as Pfizer, Merck, Monsanto, AstraZeneca and Bristol-Myers Squibb. Each session discusses how users have applied DynoChem software to improve productivity in the development and scale-up of chemical processes.

PFD Managing Director Dr. Joe Hannon commented "We are delighted by the participation of DynoChem users from around the globe. We anticipate an exciting and comprehensive meeting and our users' input will prove invaluable as we continue to expand and develop DynoChem's capabilities and ease of use."

About DynoChem

DynoChem® is a software-based productivity tool for scientists and engineers working in chemical process development and scale-up.

About DynoChem Inc.

DynoChem Inc. is the North American distributor of DynoChem®, headquartered in Wilmington, DE and is a subsidiary of Performance Fluid Dynamics (PFD) Limited, a Dublin-based company that was named a Deloitte European Technology "Fast 500" winner in 2005. DynoChem customers include 11 of the top 12 pharmaceutical companies and major agrochemical and speciality chemical producers.

For a complete User Group Meeting program, please go to the DynoChem website, www.scale-up.com.
